## Is Grayling To Be Sold Down The River?

From reports arriving in the Avalanche office, it would appear that Grayling and Crawford County folks who like to watch High School football have been sold "down the river" as far as the 1954 season is concerned.

The Grayling High School Atheltic Board attended a Northern Class C. Conference meeting last week Thursday night at Boyne City. This meeting was to name the All-Conference eleven for this year and to make the schedules for 1954 when the Grayling Vikings will again enter gridiron competition in the northern that was practically "in the bag." School officials have

games only for Grayling. Nearly all High Schools have "pulling strings" to keep the "status quo." Most folks at least seven games each season. To top it off though, have not put much stock in the rumors, but, last Thursthey plan to schedule every game AWAY FROM day night's performance makes one stop and wonder.

### Your Blood is Needed

How are you fixed for blood? Do you have any to spare? At the last blood clinic held in Grayling

lost blood clinic held in Grayling on August 7th, there were only 13 who did. Eleven of the 13 were inmates at Camp Lehman. Not a very good showing for a county population of over 4,000.

The county owes 121.6 pints of blood to the state laboratories. If this debt is not paid Crawford County may be refused much needed blood derivatives.

Plans for a community blood plasma procurement center are now being made by the Crawford Chapter of the American Red Cross. This clinic which is set up to accept donations of blood will be held on December 4th in the Michelson Memorial Church basement from 11:00 a. in. to 2:30 pm.

#### CANCER SOCIETY HOLDS MEETING

A meeting of the Crawford County Society was held on Thurs day, November 12th at the Nurses

The meeting was brought to order by the Chairman, Mrs. John A. B. MacAuley, after which the minutes of the last meeting were read and approved. Also the Treas urer's report was read and approved.

proved.

Mrs. MacAuley and Mrs. E. R. Burns discussed the convention in Lansing which they attended in October, mentioning the new ideas brought forth:

In a discussion of loans or of paying bills for treatment of needy patients, it was stated that as the Cancer Drive does not collect as large amounts as the other drives in the County (one-half of the funds collected remaining here), we therefor do not have funds enough to take care of major operations. However, we have been enough to take care of major op-erations. However, we have been able to help on several Early De-tection cases, Also to maintain a well-stocked loan closet.

A plan was set up whereby a certain amount of our funds were set aside into a temporary loan fund.

Plans are under way for a fu-ture educational program.

A very nice lunch was served in the dining room with Mrs. Geo. Hitton and Mrs. Lorne Douglas presiding following the business meeting.

#### THE OFFICIAL TRUTH ABOUT FLYING SAUCERS

What are flying saucers? Opti-cal illusions? Men from Mars? Guided missiles? Soviet spies? In Guided missiles? Soviet spies? In The American Weekly with this Sunday's (November 22) issue of Detroit Sunday Times, Capt. Walter Karig, special deputy to Chief of Information, U.S. Navy, gives—for the first time—the actual truth about flying saucers.

#### Economic Education

It is no secret that the Public at large suffers from many misconceptions concerning the workings of our economic system. There is, for example, a great dearth of knowledge as to the profits that representative enterprises earn, the amount of their revenues that

go for wages and taxes, how the national income is distributed throughout the various income brackets, and so on. This lack of basic information has been revealed time and time again through the national public opinion polls.

Various efforts are being made, especially among employee groups, to get rid of the misconceptions and put established facts in their place. An interesting example is found in a booklet entitled "The American Robb M. Winsborough and distributed by the Middle Robert of West Service Company. The booklet explains, in simple and easily assimilated form, how the American standard of living was attained, how our national instandard of living was attained, how our national income is distributed, how our economic accomplishments compare with those of other countries, and kindred matters. It is based in facts taken in large from the

reports of government bureaus.

The booklet is more or less evenly divided between text and graphic illustrations. It starts out by posing four questions: 1. What Method Shall Be Used To Get People To Work? 2. What Things Do The People Want Made, And How Many Of Each Kind? 3. Who Is Going To Do What? 4. How Do The People Divide What The People Make? Then it answers them, showing in the process how the free market determines production and prices; how tools, ranging from a hand saw to a huge factory, have resulted in progress for all; how the machine has increased our earning power and at the same time decreased the amount of time we must give to work; how investment of capital has created more and better-paying jobs; how profit is but a very small part of what the customer pays when he buys most goods and services, and so on.

The body of a woman, apparently between 18 and 25 years was discovered by a couple of hunters, in a shallow grave 4½ miles west of Frederic near the Manistee River. There is every evidence that the woman had met with four play and officers are of the opinion that the body had been there since Spring. It is a mystery who she is that may never be solved.

# hrill Maker from start to stop

COMETIME soon - like this week you ought to try a Buick with Twin-Turbine Dynaflow.\*

You ought to try it just to be familiar with the great advance in this fully automatic transmission that Buick engineers have accomplished.

You ought to try it just for the fun of bossing a drive where you don't do a blessed thing but steer and press the gas or the brake pedal as you go.

But, pure and simple, you ought to try it for thrille.

We mean the thrill of instant getaway response—with two turbines doing the job that one did before.

We mean the thrill of whisper-quiet

neceleration - where you barely hear

the sound of power build-up, or of flowing oil at work.

And, most emphatically, we mean the thrill of perfect and sublime smoothness from start to stop - the thrill of moving from standstill to and through all travel ranges in one, progressive, infinitely smooth forward "carry' without a gear ever shifting or a clutchpedal pushed - the thrill, rarely found elsewhere, of silky smoothness in deceleration, too.

Will you be our guest at a sampling of a Buick with TT Dynaflow?

Will you try the sweetest, the smoothest and the simplest-to-operate automatic transmission yet devised - and powered by the highest-compression engines in Buick history, including the world's newest V87in Super and ROADMASTER models?

Drop in on us this week and we'll be happy to accommodate you.

Artist's Sketch of the Proposed New Building For The Grayling Mercy Hospital

Pictured above is an artist's sketch of the proposed new building for the Greyling Mercy Hospital which will be made possible due to a highly successful drive for funds carried out in Grayling and the surrounding area serviced by the hospital during this past summer and fail. The drive which officially ended on October 21 with a report banquet at the Pioneer Hills Sports Park reported at that time that \$328,364.21 had been pledged. Since the drive was officially over many other pledges have been received. The latest total places total pledges at the figure of \$363.481.58, well over the drive quots of \$300,000. On another page in the issue is a complete list of all who pledged to the drive for a new, modern, fireproof Grayling Mercy Hospital. The executive committee is taking this means to publicly thank those who donated. Further pledges to the drive which are expected to come in at later intervals until the building is completed will be acknowledged at a later date.

It was learned at this meeting that St. Mary's school library has been started and the children are already enjoying the new books which have been purchased with money donated by the society, who have made this their project for the year, of establishing a school library. Among plans made and matters discussed, it was decided to take part in the national clothing drive for the needy overseas, that is being sponsored by Catholic churches. Mrs. J. W. Wiltse having invited the members of the society to her home for the annual Christmas party, the date was set for the evening of Dec. 15th.

#### SUSPECT DEER POISONED

More dead deer have been found in the northern lower peninsula during recent days, the Conservation Department reports, apparently the victims of plant

poisoning.

Hunters earlier reported finding three dead deer east of Rose City, two east of Vanderbilt and five in Missaukee County.

Since then, other hunters and department field workers located another east of Rose City, two more near Vanderbilt, two near Sharon and three near Bear Lake, Kalkaska County.

Sharon and three near Bear Lake, Kalkaska County.
Biologists have examined some of the deer carcasses at Houghton Lake experiment station and at the East Lansing pathology laboratory, but thus far have found no clear evidence of the cause of death.

None of the deer had been injured in any way and no evidence of infectious disease was found. All the animals were fat and in excellent condition at time of death.

The Fireman's Committee then presented their request for a high pressure fire equipment for replacement of th Ford 34 ton truck so they may be better equipped to handle rural fires and be of hetter service to the City.

death.

Biologists believe, however, that death was caused by plants that at certain times of the year are highly poisonous.

Wild cherry leaves, in a wilted fall condition, are some times strongly poisonous, as are bracken "ferns", and certain mushrooms.

Game men say it's timusel that

## Researchers In Second Annual Follow-Up Of Smoking Study

Seen In State

Volunteer researchers of the Michigan Division of the American Cancer Society are completing their second annual follow-up reports on 36,166 in the state who are participating in the national smoking study to determine whether there is a relationship between the use of tobacco and thing cancer.

lung cancer.

Beginning in January, 1952, volunteer researchers in 384 selected counties in nine states obtained histories of the smoking habits of 204,547 men between the ages of 50 and 69. States participating in the study are New York, Illinois, Minnesota, Michigan, New Jersey, Pennsylvania, Wisconsin,

This major research project was undertaken for two reasons, according to Dr. E. I. Carr. Medical Chairman of the Michigan Division. "First, a number of studies in the past have indicated that smoking may be an important factor in the cause of lung cancer Secondly, and most important death rates from lung cancer have been increasing at an alarming rate and are continuing to increase. It is of the utimost importance that we discover the cause as soon as possible."

This year's follow-up report, like last year's will be made by the researchers who conducted the original poll of facts and will show whether the person understudy has died since the last follow-up was made.

"When the cause of death has been determined from death certificates and other medical records," Dr. Carr said, "statisticians at the national office of the Society in New York City will use the data to determine whether death rates from cancer are any greater among smokers."

The follow-up report will also show whether the man unider

The follow-up report will also show whether the man under study has moved and his new address so that his case history will not be lost.

Dr. Carr said that he had been informed by the national office that the study originally planned to continue over five years may be completed sooner than expected because of the "excellent performance of the volunteer researchers. Much will depend on the results of this year's follow-up."

up,"
Dr. E. Cuyter Hammond, director of the study at the national office in New York, sent the following message to the volunteer researchers in the Michigan Divi-

office in New York, sent the following message to the volunteer researchers in the Michigan Division.

"Questioning such a large number of men at the outset of the study was a remarkable feet in itself, but what was most gratifying to us was the high quality of the work. A certain number of errors are to be expected on such a large scale project, but in this instance 97 per cent of the questionnaires were usable and 90 per cent perfect. It is very doubtful whether paid, professional interviewers would have done as well. The importance of the study is not limited to lung cancer. Dr. Hammond explained. "An analysis will be made of the results of the study for all major causes of death. Perhaps the most important finding will be the effect, if any, of smoking on the general death rate."

The Smoking Survey in Crawford County is under the direction of Mrs. E. R. Burns. Of the 36, 166 men interviewed in the Michigan Division, 100 were interviewed in this county. Ten men, each were interviewed by Mrs. Geo. Hilton, Mrs. Fred Lamm, E. R. Burns, Mrs. Abble Madlll, Mrs. Roberta Wright, Mrs. Opal Hamblin, Mrs. Walter Mikesell, Mrs. C. N. Harney and Mrs. Ben Garland. The lirst survey showed two changes in address. The second survey showed three more address changes and four lost by death None have been lost to the study sin the entire Michigan in 
report.
Only 15 men were lost to the follow-up in the entire Michigan
